

ARMED GUARDS  
CLOSE PROTECTION  
SECURE TRANSPORT  
TRADITIONAL GUARDS  
FIRE WATCH  
ANTI-KIDNAPPING  
MARITIME SECURITY  
PRIVATE DETECTIVES

There's a reason why USPA Nationwide Security has grown from a one-man security guard company in 2005, to a multinational security company operating in 14 countries and all 50 states – providing security guards, bodyguards, armed security officers, executive protection, event security, estate security and emergency fire watch services. We developed a Certified Contractor Program long before the word 'security contractor' was the main stream thing. The CEO of all of the USPA Security brands is also the CEO of USPA Technologies which developed an app, similar to Uber, where we have pre-screened security guards at the ready that can be at your location within minutes utilizing the same technology as Uber. We do not share that technology with other security companies, so we have *more than 3000 security guards at the ready at a moment's notice*, and that is not just a tagline, but a reality

CONNECTING YOUR BUSINESS TO SECURITY RESOURCES YOU NEED WORLDWIDE

USPA Nationwide Security is a traditional security guard company, part of the network, under the umbrella of USPA International, a dedicated close protection service operating in 14 countries providing bodyguard services, close protection convoy security and pathfinding services in high risk zones. Our collaborative and efficient approach to security services helps our clients reduce costs, manage risk and create a safe working environment. Our values define how we work

with our security clients as they are a main reason for our success. The USPA brand has grown from a one-man security guard company on Long Island in 2005, to a multi-national security guard firm operating in all 50 states and in 14 countries. USPA Nationwide Security sets the standard in the industry by which other firms and security guard companies have measured and emulated their own policies and procedures.

## value before profit is what sets us apart

### REAL SECURITY SOLUTIONS

#### We put value before profit

We're in the security vocation to protect people, and it's why we've grown so quickly. Repeat business is where our profits come from over time. That's why we:

#### Lay all of our cards on the table

We are straight to the point when it comes to what you need to protect your family, business, assets and we always cut the fat where and when needed. Trust and transparency are the building blocks to a long-term relationship.

Our success has been built on the trust we've earned since 2005. We work hand-in-hand with our clients to solve complex security challenges in ways that minimize risk. Our world-class security experts become part of our clients' security team, innovating with them and putting the right technology in place to protect their families, businesses and assets.

### USPA NATIONWIDE SECURITY PROVIDES A TOTAL END TO END SOLUTION.

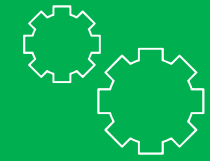

### 21<sup>ST</sup> CENTURY BUSINESS MANAGEMENT

We support the 21st century business person with 21st-century security guard services. USPA also has a technology company, USPA Technologies, which develops apps in the security and law enforcement field and are used all over the world today.

At USPA Nationwide Security, our core services are security guards, bodyguards, armed security officers, event security, estate security and traditional security guard services.

At USPA International Security, our ancillary services are convoy security, pathfinding services, prisoner transport service, private policing in areas such as Africa, anti-kidnapping and kidnapping recovery services.

## PAPERLESS COMPANY

USPA has Gone Green. Utilizing our paperless tracking devices, on-line reporting systems, direct deposit, ACH payment systems, secure digital servers and an array of digital forms located on our employee login page, USPA has completely eliminated our reliance on paper.
