

School Security Plan & Threat Assessment

OVERVIEW OF USPA'S SCHOOL SAFETY OFFERINGS

Presented by
USPA Nationwide Security

Designed by our nation's most elite warfighters.

Navy SEALs, Army Rangers and Delta Force Operators

Our team of highly trained security experts brings decades of real-world experience and expertise to ensure that your school is as prepared as possible to deal with an active shooter. Our plans are designed to address the unique challenges of school security, and we work closely with school administrators, teachers, and staff to create a comprehensive security plan that is tailored to your school.

At the heart of our school security plans is our focus on continually improving situational awareness. We believe that the best way to prevent a security incident is to be aware of potential threats before they occur. Our thorough assessment of your school's unique security risks makes it possible for us to develop a custom plan to mitigate those risks. Our security plans include measures to prevent and respond to a variety of potential threats, including active shooters, natural disasters, and other emergencies.

USPA's School Security Assessments are conducted by veterans of our nation's most elite fighting forces:

What's Included in the Plan?

Some of the key components of our school security plans include:

- **Threat assessment:** We conduct a thorough assessment of each school's unique security risks to identify potential threats and vulnerabilities.
- **Access control:** We assess all points of access and the access controls you have in place for who can enter the school.
- **Surveillance and monitoring:** We train you to maximize the use of your surveillance and monitoring technologies to detect and deter potential threats.
- **Communication and response:** We develop clear communication protocols and response plans to ensure that everyone in the school knows what to do in the event of an emergency.
- **Training and drills:** We provide comprehensive training to school staff and students to ensure that they know how to respond in case of an emergency. We also conduct regular drills to test the effectiveness of our security plans.

We believe that every child has the right to a safe and secure learning environment; and that every teacher deserves to know that they are entering a safe work environment.

Safety is a basic human need and a fundamental aspect of any healthy work environment. When teachers and students feel safe and secure in their school, they are more likely to be productive, engaged, and motivated. Our school security plans are designed to provide peace of mind to parents, teachers, and students, knowing that their school is protected by the best in the business.

Why Conduct a School Security Assessment?

In light of recent school shootings, school administrators have an increased responsibility to plan for the safety and security of their students, teachers, and staff. A thorough security assessment is a critical first step in identifying potential vulnerabilities and risks that could put the school community at risk.

There are several benefits of having a school security assessment done by our elite team of former Navy SEALs, Army Rangers, and Delta Force operators. Some of the key benefits include:

- **Improved safety and security:** One of the most obvious benefits of a school security assessment is improved safety and security for students, teachers, and staff. By identifying potential security risks and vulnerabilities, security experts can create a comprehensive security plan that addresses these issues and reduces the likelihood of a security incident occurring.
- **Enhanced emergency preparedness:** In the event of an emergency, it's crucial that everyone in the school knows what to do and how to respond. A school security assessment can help identify potential emergency scenarios and create a response plan that ensures everyone knows what to do in case of an emergency.
- **Reduced liability:** By taking proactive steps to improve school security, schools can reduce their liability in the event of a security incident. This can help protect the school and its staff from lawsuits and other legal action.
- **Peace of mind:** A school security assessment can provide peace of mind to parents, teachers, and staff, knowing that their school is taking proactive steps to ensure the safety and security of everyone in the building.
- **Improved relationships with the community:** By demonstrating a commitment to school security, schools can improve their relationships with the community and build trust with parents and other stakeholders.

Overall, a school security assessment can provide a wide range of benefits, from improved safety and security to enhanced emergency preparedness and reduced liability. It's a proactive step that can help ensure the safety and security of everyone in the school building. Contact us today to learn more about how our security plans can help protect your school.

Our Leadership Team

Mike Edwards

VIP Security & Deployment Team Leader

Mike served in the US Army's elite, Tier-1 special operations unit, the Regimental Reconnaissance Company (RRC). Mike served on numerous combat deployments, commanding a Somali force of over 700 fighters as the senior US advisor. He has been nominated to the Ranger Hall of Fame and is a recipient of the Purple Heart and the Silver Star for valor in combat.

Rodney Brown

Director of Close Protection Services

Rodney served 16 years in the US Navy, serving on the Navy's elite SEAL Team 6. He is a trained Navy SEAL sniper and human intelligence specialist with numerous personal awards for valor in combat. Rodney has conducted special operations training for the armed forces of Afghanistan, Qatar, Bahrain, Oman, Kuwait, and the United Arab Emirates.
